

**Resolution Submitted from Long Island Chapter of Health-care Pharmacists 2-6-2018**

**Drafted and Submitted by Gregory Mack**

**Background: Where as New York State is looking to increase revenue and might consider taxing opioid medications, when these items are taken for medical benefits and have never been taxed before. Medications have increased in out of pocket expenses for our patients. Where as there should not be a specific class, item or disease state or diagnosis targeted for additional revenue by New York State, County, City, Village or Town**

**Be it resolved that the NYSCHP opposes any and all additional fees, taxes or costs added onto medications, devices, durable medical equipment by the State, Cities, Counties, Villages and Towns in the State of New York**
