Resolution

Committee: Westchester Chapter of New York Society of Health-System Pharmacists
Topic: Standardized Certification and Recognition Program for Pharmacy Excellence
Sponsored: Daryl Schiller, PharmD, BCPS AQ-ID

Pharmacy "Magnet" status in New York State

Whereas, A formal program for recognizing Pharmacy Departments that exemplify best practices does not exist other than "Best Practice" awards and,

Whereas, Some hospital pharmacists in New York State are already involved in progressive patient care and leadership practices and,

Whereas, Hospital pharmacy practice models are not standardized and vary depending on resources, administrative preferences, and patient needs and,

Whereas, Job satisfaction for hospital pharmacists has been shown to be positively related to utilization of skills and adequate staffing and,

Whereas, Nursing magnet status has demonstrated increased nursing satisfaction, improved retention rates, decreased turnover, and better patient outcomes, therefore, be it

Resolved That:

The New York State Council of Health-System Pharmacists should create and implement a certification and recognition program that identifies Pharmacy Departments that exemplify clinical, operational, and leadership excellence.
