| <i>Dr. Mark Sinnott</i>  | Management. The Chair introduced the President of the NYSCHP Board of Directors, Qazi Halim to present the nominations for the position of Treasurer. The candidates for Treasurer are Philip Manning and Catherine Millares. The nomination for Treasurer will be voted on in the first session of the House.  |  |
| <b>Report of the Vice President of Public Policy</b><br><i>Mr. Christopher Jadoch</i>  | Mr. Jadoch summarized his report and separated the position statements.   | <b># 1 APPROVED:</b> To accept the report of the Vice President of Public Policy |
| <b>Report of the Vice President of Public Policy-</b><br><i>Mr. Christopher Jadoch</i> | 2-09 The New York State Council of Health-system Pharmacists supports regulations and guidelines to ensure that vendors providing computerized physician order entry systems, drug infusion pumps, and other technologies utilized for medication order entry, distribution and administration accommodates and comply with safe medication nationally accepted standards and practices.  | <b>#2 APPROVED</b> To re-adopt Position Statement 2-09.                          |
| <b>Report of the Vice President of Public Policy-</b><br><i>Mr. Christopher Jadoch</i> | 6-09 The New York State Council of Health-system Pharmacists supports and advocates for the creation of sterile compounding regulations, in Part 63 of the regulations of the Commissioner of Education that reflect national standards in accordance with evidence based medicine and are subject to regular review and modification.  | <b>#3 APPROVED</b> To re-adopt Position Statement 6-09.                          |
| <b>Report of the Vice President of Public Policy-</b><br><i>Mr. Christopher Jadoch</i> | 11-09 NYSCHP supports that chemotherapy admixture, regardless of whether it occurs in a hospital, private physician office, or otherwise be overseen by a licensed registered pharmacy, that it is performed in a location separate from the patient care areas, that USP 797 guidelines are upheld, and that the pharmacist may determine the most reasonable process for ensuring safe and effective compound of chemotherapy for the practice.   | <b>#4 APPROVED</b> To re-adopt Position Statement 11-09.                         |
| <b>Report of the Vice President of Public Policy-</b><br><i>Mr. Christopher Jadoch</i> | 12-09 NYSCHP supports re-instatement of internship requirements for Pharmacy students; to provide an incentive for prospective pharmacists to gain more extended practical experience in actual pharmacy work settings, with the intended outcome of insuring that new pharmacists have the experience that will allow them to become effective within a short time after completing all of the requirements for licensure, the NYSCHP supports the incentive provided by the NYS BOP that allows pharmacy students to take the practical portion of the pharmacy board exam after completion of their 5 <sup>th</sup> year of Pharmacy School, provided the student has obtained 1000 hours of work experience as a pharmacy intern. This incentive is provided as an alternative to the reinstatement of the internship requirement for licensure, with the understanding that the work experience is over and above the experiential component required as part of the PharmD curriculum. In addition, the incentive for pharmacy students will provide the Pharmacy work setting with a more reliable workforce of pharmacy students. | <b>#5 APPROVED:</b> To re-adopt Position Statement 12-09.                        |

|   |   |   |   |
|---|---|---|---|
| Report of the Vice President of Public Policy-<br><i>Mr. Christopher Jadoch</i> | 13-09   | NYSCHP supports mandatory vaccines: Vaccines work best when most members of a community are vaccinated, therefore if more people are vaccinated, the lower the possible risk of anyone exposure to vaccine preventable diseases. To protect and promote the health of the Public, the NYSCHP supports mandatory vaccines approved by the Food and Drug Administration (FDA) for children and healthcare workers to protect against diseases when evidence based medicine indicates the risk of the disease outweighs the potential risk of the vaccine. The immunizations should be in accordance with the Center for Disease Control and Prevention (CDC) and supported by advisory Committee on Immunization Practice (ACIP). The goal of mandatory vaccines is to prevent and reduce the severity of diseases, focusing on prevention. NYSCHP also recognizes a mandatory vaccine exception is needed for individuals with medical reason and personal beliefs as long as the safety of the public health is not at risk and in cases of national emergencies. | #6 APPROVED: To re-adopt Position Statement 13-09.            |
| Report of the Vice President of Public Policy-<br><i>Mr. Christopher Jadoch</i> | 1-04  | NYSCHP recommends not supporting the pharmaceutical Market Access Act of 2003. The pharmaceutical market access act of 2003 compromises the ability of the pharmacist to provide safe medication use and advance patient care. The Pharmaceutical Market Access Act is not supported by the US Food and Drug Administration, The American Medical Association, The American Pharmacists Association and the American Society of Health System Pharmacists.  | #7 APPROVED: To sunset Position Statement 1-04.               |
| Report of the Vice President of Public Policy-<br><i>Mr. Christopher Jadoch</i> | 2-94  | Pharmacists' Role As an immunization Advocate. The NYSCHP believes and supports that the pharmacist should take an active role as primary advocate of immunization practices to promote health and to prevent disease.  | #8 APPROVED: To re-adopt Position Statement 2-94.             |
| Report of the Vice President of Public Policy-<br><i>Mr. Christopher Jadoch</i> | Mr. Jadoch requested a suspension of the rules  |   |   |
| Suspension of the rules<br><i>Mr. James Lytle, Esq.</i>                         | The rules of the house were suspended to afford the Mr. James Lytle, Esq, Lobbyist for NYSCHP the opportunity to address the house. |   |   |
| Report of the Executive Director-<br><i>Ms. Debra Feinberg</i>                  | The Executive Director summarized her report.   |   | # 9 APPROVED: To accept the report of the Executive Director. |
| Report of the Treasurer<br><i>Mr. Philip Manning</i>                            | The Treasurer summarized his report.  |   | #10 APPROVED: To accept the report of the Treasurer.          |

| Pharmacy Practice-<br>Dr. Robert DiGregorio                           |   | report of the Director of Pharmacy Practice       |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 3-08 NYSCHP supports wider involvement of hospital pharmacists in medication reconciliation activities and patient counseling on all discharge prescriptions. Hospital pharmacists receive the most training in medication management, management of drug interactions, drug dosage forms, strengths and routes, and other drug therapy activities, and, medication errors, including those involving omissions, duplications, dosing errors, or drug interactions continue to endanger patients in the hospital setting, and, medication reconciliation continues to be a JCAHO recommended medication error prevention strategy, and, counseling patients on discharge prescriptions can provide education to minimize errors during out-patient prescription maintenance therapy.  | #13 APPROVED: To table Position Statement 3-08    |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 5-08 The New York State Council of Health-system Pharmacists will partner with the American Society of Health-system Pharmacists (ASHP) and the Joint Commission standard 4.10 to review the feasibility of health-system pharmacy department's ability to comply with the prospective review of all medications orders, so as not to dilute the value of the pharmacist reviews that are already occurring in our practice sites.  | #14 APPROVED: To sunset Position Statement 5-08   |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 7-08 The New York State Council of Health-system Pharmacists supports evidence based use of medications and alternative medicine or CAM and encourages the development of health care policies that address safe, effective and affordable care within the health-system.   | #15 APPROVED: To sunset Position Statement 7-08   |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 3-03 NYSCHP recommends that pharmacists seek assurance that entries into all computerized Prescriber Order Entry systems require pharmacist verification prior to medication administration in inpatient settings, except in those instances when review would cause a medically unacceptable delay. The New York State Council of Health-system Pharmacists anticipates increased implementation of Computerized Prescriber Order Entry (CPOE) systems in NYS. Some of the desired goals for implementation of this technology are improved patient safety and decreased medication errors. Past experience shows checks and balances provided by pharmacists are vital to safe medication use and this professional judgment cannot be programmed into a computer.  | #16 APPROVED: To re-adopt Position Statement 3-03 |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 2-98 NYSCHP recommends Unit Dose packaging. The current policy statement implies traditional unit dose dispensing. Currently, the majority of medications are supplied as traditional unit dose by manufacturers. Some automated dispensing equipment cannot dispense traditional unit dose; repacking then is required by the pharmacy. The policy should be revised to include unit dose packaging for automated dispensing. The New York State Council of Health-system Pharmacists encourages the pharmaceutical manufacturers to provide unit dose packaging, including packaging for automated dispensing devices, throughout their product lines and, be it further resolved, the New York State Council of Health-system Pharmacists recommend to the American Society of Health-system Pharmacists to actively pursue this matter on a national level. | #17 APPROVED: To sunset Position Statement 2-98   |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 2-93 NYSCHP recommends pharmaceutical Care The New York State Council of Health-system Pharmacists adopts the ASHP Statements on Pharmaceutical Care.   | #18 APPROVED: To sunset Position Statement 2-93   |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio | 10-09 The New York State Council of Health-system Pharmacists advocates that members of pharmacy staff, in certain health care settings such as hospitals and clinics, become certified in phlebotomy so that said individuals may be utilized to obtain serum drug levels at the appropriate times in order to ensure accurate therapeutic drug monitoring and proper drug dosing adjustments.   | #19 APPROVED: To sunset Position Statement 10-09  |

|  |   |   |
|--|---|---|
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio        | 8-09 The New York State Council of Health-system Pharmacists recognizes and strongly supports health-system pharmacists as an integral part of the multidisciplinary team charged with the task of medication reconciliation activities and patient counseling on all discharge medications.  | #20 APPROVED: To table Position Statement 8-09                          |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio        | 7-09 The New York State Council of Health-system Pharmacists supports the use of 28 days for expiration/beyond use dating for commercial sterile multi-dose products, once entered by the puncture of a needle or other injection device.   | #21 APPROVED: To sunset Position Statement 7-09                         |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio        | 5-09 The New York State Council of Health-system Pharmacists supports inclusion of a pharmacist representative in guidance documents that establish standards of care.  | #22 APPROVED: To sunset Position Statement 5-09                         |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio        | 4-09 The New York State Council of Health-system Pharmacists supports inclusion of cost analysis information in treatment guidelines that establish standards of care, when this information is available in the published biomedical literature and is of valid study design.  | #23 APPROVED: To sunset Position Statement 4-09                         |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio        | 3-09 The New York State Council of Health-system Pharmacists supports standardization and consistency with regard to typographical formatting, font size, use of abbreviations, symbols, dose designations, tall man lettering, to support safe medication use.   | #24 APPROVED: To sunset Position Statement 3-09                         |
| Report of the Director of Pharmacy Practice-<br>Dr. Robert DiGregorio        | 1-94 The New York State Council of Health-system Pharmacists believes and supports that it is within the pharmacist's professional role to dispense medications under protocol, which may include initiation and/or modification of medication regimen.   | #25 APPROVED: To sunset Position Statement 1-94                         |
| Report of the Director of Pharmacy Management-<br><i>Dr. Stephanie Seyse</i> | Dr. Seyse summarized her report.  | #26 APPROVED: To accept the report of Pharmacy Management.              |
