

NYSCHP NEW PRACTITIONER COMMITTEE MENTORSHIP PROGRAM, MENTOR OF THE YEAR

Evan Sasson, PharmD, BCCP

The NYSCHP New Practitioner Committee recently concluded the second year of its mentorship program, which aims to connect experienced practitioners with pharmacists who have fewer than five years of clinical experience. As the program continues to grow, the committee was excited to introduce its inaugural Mentor of the Year Award during this mentorship cycle. This nomination-based award recognizes a mentor who has made an exceptional impact on their mentee's professional and personal development. Nominations submitted by mentees highlighted the meaningful contributions mentors make in supporting career growth, sharing expertise, and helping early-career practitioners navigate challenges and achieve their goals.

This year's recipient of the NYSHCP New Practitioner Committee Mentor of the Year Award is Evan Sasson, PharmD, BCCP.

Dr. Sasson has more than 10 years of clinical pharmacy experience, with expertise in ambulatory care and cardiology. He currently serves as Director of Pharmacotherapy Services, Residency Program Director PGY1 at Wyckoff Heights Medical Center.

Dr. Sasson was nominated by his mentee for his exceptional commitment to mentorship and professional development. Throughout the mentorship cycle, he provided invaluable guidance on staying current in clinical practice, navigating burnout, and developing effective precepting strategies. His mentee also highlighted Dr. Sasson's consistent encouragement, accessibility, and ability to foster a supportive environment that promoted both professional and personal growth.

The New Practitioner Committee is proud to recognize Dr. Sasson for his dedication to mentoring the next generation of pharmacists and for the meaningful impact he has made on his mentee's career development. Congratulations, Dr. Sasson, and thank you for your continued commitment to fostering the growth of new practitioners.
